

# Theory of Change

## SHORT TERM OUTCOMES

12 Months

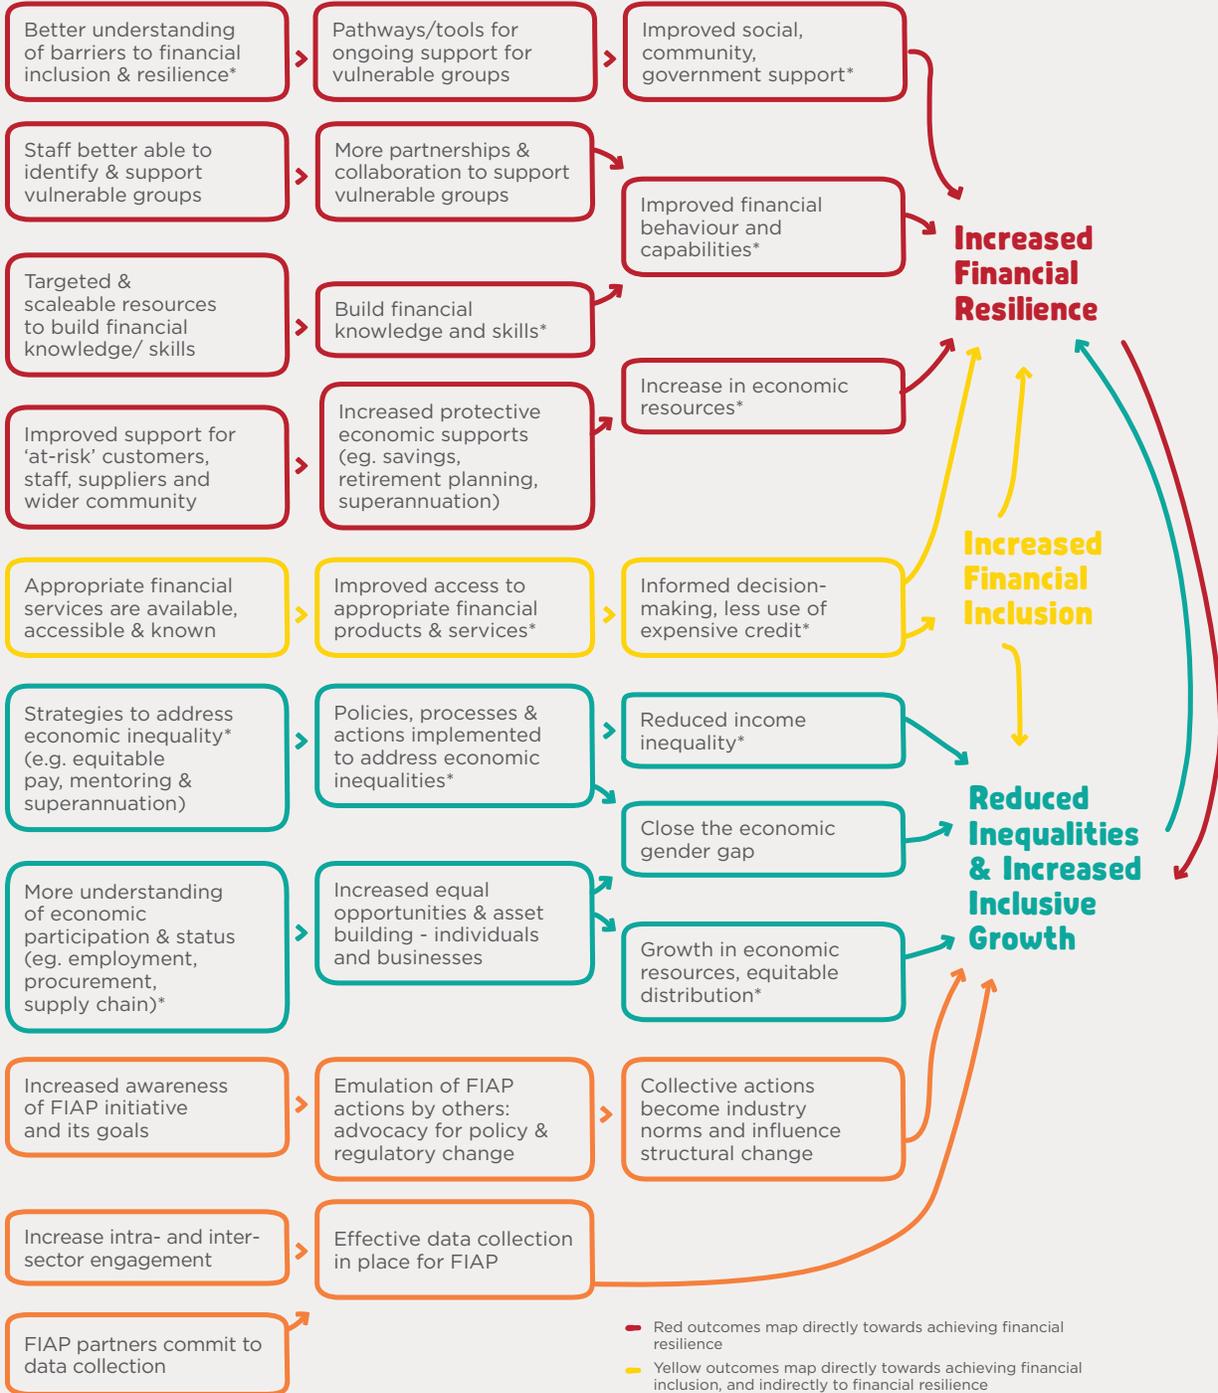

## MEDIUM TERM OUTCOMES

1-3 Years

## LONGTERM OUTCOMES

5 Years+

## IMPACT

\*especially for groups at risk of financial exclusion and hardship

- Red outcomes map directly towards achieving financial resilience
- Yellow outcomes map directly towards achieving financial inclusion, and indirectly to financial resilience
- Green outcomes map directly towards reducing inequalities and increased inclusive growth
- Orange outcomes are indirect outcomes that will support FIAP and facilitate impact

Note: While FIAP seeks to contribute to change in macro (population level) outcomes for Australia (e.g. Gini-co-efficients and other determinants of economic growth and overall population level inequalities) it is not possible to attribute them directly to FIAP. Changes can only be tracked at a Trailblazer level based on their activities and intended target groups, by monitoring changes for these groups over time.
